### **Introduction**

The 2020-2021 school year will begin my thirteenth year teaching, all of which have been proudly spent in the Lexington R-V School District. The entirety of my education career has been in the special education department. Since 2011, I have been Head Coach for our Special Olympics teams. Every year, our special athletes participate in bowling, basketball, and track & field. This year I will be case manager and teacher for special education students in grades K-1 and some in high school. At high school I will be teaching Transition and Reading.
